THE HONOURABLE ALBERT MATTHEWS, LIEUTENANT-GOVERNOR
OF OUR PROVINCE OF ONTARIO.

At Our City of Toronto, in Our said Province, this eighth day of December in the year of Our Lord one thousand nine hundred and forty-one and in the sixth year of Our Reign.

BY COMMAND

C. F. BULMER,
Clerk of the Crown in Chancery.

Wednesday, the eleventh day of February, 1942, being the first day of the Seventh Session of the Twentieth Legislature of the Province of Ontario for the Despatch of Business pursuant to a Proclamation of the Honourable Albert Matthews, Lieutenant-Governor of the Province.

3 O'CLOCK P.M.

And the House having met,

The Honourable the Lieutenant-Governor of the Province then entered the House and, being seated on the Throne, was pleased to open the Session by the following gracious speech:—

Mr. Speaker and Gentlemen of the Legislative Assembly:

Since you last met, the war, which is now in its third year, has spread to Asia and the Orient, and on both the Atlantic and Pacific coasts of this continent, the presence of the enemy is being felt. Although responsibility for the conduct of the war rests with the Dominion Government, the activities of the various Departments have naturally been greatly influenced by the war, and every effort has been put forth to contribute in the most effective way possible under the circumstances.

The training of skilled men for the war industries has called for special efforts by the Department of Labour and Education. Instruction is being given in thirty Vocational Schools, and in the first year from July, 1940, to June, 1941, over 25,000 men and women, or 61 percent of the Dominion total, received instruction. In addition, over 6,000 members of the Armed Forces received

training, or 34 percent of the Dominion total. The Aircraft Training School at Galt has steadily increased its capacity until at present there are over 1,000 students in training. These two Departments also co-operated with the Department of Agriculture in supplying secondary school students for summertime work on the farms. Ten camps for girls were established in the Niagara District during the fruit-picking season, while the boys usually lived with the farmers for whom they worked. Over 22,000 of these workers were placed, and similar plans are underway for the present year.

On August 1st, 1941, the Ontario Government Offices of the Employment Service of Canada which have been in operation for 22 years were transferred to the Dominion Government in order to consolidate the administration of The Unemployment Insurance Act. Practically the entire staff was involved in the transfer. The details of their status under the Dominion Superannuation Act have not yet been completed.

The protection of vital services from sabotage and the organizing and instructing of people in Civilian Defence have become of prime importance. Under the Chairmanship of the Attorney-General, the Provincial Civilian Defence Committee has been very active, assisting the municipalities to set up their organizations and train their members, while the Provincial Police continually carry out escort duties in connection with troop movements and transportation of explosives. A special section of the force has also done very good work in checking the theft of highgrade ore and has brought a number of offenders to justice.

The subsidy on hogs, authorized at the last Session by this Legislature, became effective on May 5th, 1941, and up to December 31st, 1941, 126,553 applications were received, and \$664,045.00 paid out. Incidentally, an immediate result of the subsidy was that hogs were marketed at correct weights, and thereby secured also the packer's premium. During the winter of 1940-41, there was a very reduced make of cheese in Ontario due to the price, but the bonus you authorized effected a great improvement, with the result that 112,000,000 pounds needed for Britain were secured by October 31st. In December, three times as much cheese was made as in the same month of the previous year. To encourage better feeding of cattle, hogs and poultry, the Dominion and Province have also paid freight on grain from Fort William to other Ontario points. Over 3¼ million bushels were moved at a cost to the Province of \$170,000.00, and some 22,000 farmers were benefited.

Since the Air Force took over a portion of the Ontario Agricultural College, activities have been somewhat restricted, but there is still a student body of 340. The Royal Canadian Air Force Cooking School conducted by the Macdonald Institute Staff has had an attendance to date of 850, while over 200 have attended the Radio Technicians' Course.

Some twelve valuable Provincial properties have been transferred to the Dominion authorities for war uses. Since the Legislature last met the Ontario School for the Deaf at Belleville, Toronto Normal and Model School, Boys' Training School at Bowmanville, Ontario Hospital at Brampton, and the Ontario Training College for Technical Teachers at Hamilton, have been so loaned at

the Dominion's request and in accordance with the Resolution of this Legislature. The actual cost of the twelve properties to Ontario would exceed \$15,000,000.00.

Two years ago, because of restricted prison accommodation, camps were established for prisoners to work on the new highway east of Long Lac. This undertaking was a marked success and with this section of the highway completed and because of a continued decrease in the number of prisoners, there is now sufficient accommodation for them in the remaining institutions.

The Department of Health has rendered valuable services to the Dominion authorities in placing at their disposal all the facilities of the Provincial Laboratories, and in addition has examined for the armed services almost 100,000 specimens. Gratifying progress has been made in the fight against tuberculosis. Last year, the death rate dropped to 26.7 per 100,000 population. This is a decrease of 24.5 per cent in the five years during which the campaign has been actively under way. Certain amendments to The Public Health Act are planned, changing the definition of pasteurization which will make it possible to use more recent and modern methods of protecting our milk supply. A new Act will also be submitted to improve the method of control of social disease within the Province.

Highway construction was carried out during the year to provide facilities for new war industries, military camps and airports. Further progress was made in extending the Queen Elizabeth Way to connect with the Peace Bridge at Fort Erie and also with the new International Rainbow Bridge at Niagara Falls, which was opened for traffic on November 1st. Because of the close co-operation between the United States and Canada in the war the completion of these works is warranted. Work was continued between Hearst and Long Lac which should prove valuable for war purposes and completion of the highway from Geraldton to Long Lac is contemplated. Increasing industrial traffic has caused considerable deterioration to pavements constructed to lighter standards twenty years ago and extensive resurfacing will need to be done this year.

Tourist traffic was exceptionally good; over half-a-million more cars with American licenses entering the Province than in 1940. It is extremely difficult to estimate the value of tourist business, but using the basis employed by the Foreign Exchange Control Board, the sum would be somewhat in excess of \$74,000,000. It is worthy of note that 70 percent of the entire Dominion traffic came to Ontario. With gasoline rationing, a shortage of rubber and the United States now at war, it is problematical what the tourist traffic will be this year. The increase of tourists was strongly reflected in the revenues of the Department of Game and Fisheries where the sale of non-resident fishing licenses will approximate half-a-million dollars or \$100,000 more than in any previous year. Sale of non-resident hunting licenses, reaching well beyond \$100,000, also substantially increased. The European market for furs has been completely lost, but a ready market has been found in the United States.

An improved position in municipal finances is again reported. The gross debenture debt at the end of 1940 was \$365,576,000, compared with \$483,952,000 in December, 1934. Of the original \$108,224,000 in default or involved, \$96,568,000 has now been refunded or dealt with on a permanent basis and

\$9,552,000 on an interim refunding basis, leaving only \$2,134,000 to be dealt with.

Increased employment has had a marked effect upon relief expenditures. At the outbreak of war 195,000 persons were receiving relief compared with 32,000 in January this year, with the cost to the municipalities being reduced from \$263,000 a month to \$75,000, and the cost to the Province being reduced from \$616,000 to \$245,000. Those now on relief are unemployable or partially employable, and for the latter a policy is in effect of giving training which fits them for some work in industry. There has also been a marked decrease in the numbers of those receiving Mothers' Allowance with the increased opportunities for work for children of employable age, as well as for mothers able to avail themselves of it. Old Age Pensions and pensions for the blind are gradually increasing. The Soldiers' Aid Commission originally established for assisting ex-service men of the first World War is carrying out similar work for those discharged in the present conflict.

The Hydro-Electric Power Commission of Ontario is now supplying half-a-million horsepower for direct war production, representing approximately 25% of the total output, which for the first time, in October last, exceeded 2,000,000 horsepower. During the year 10,000 horsepower was placed in production on the Musquash River and good progress is being made with the 54,000 horsepower development on the Madawaska River. Deliveries of power already contracted for have been advanced and contracts for further supplies entered into. Nevertheless, in order to meet demands from the war industries some restriction of electric power for less essential use will be necessary. The priority regulations of the Dominion Government have already operated to curtail extensions to rural lines which involve the use of large amounts of material per consumer served.

The demand for the products of Ontario's forests continues unabated. The Province is supplying pulp for munitions, lumber for war industries and hardwood veneer for aircraft, not only for domestic use but also for our American ally. The Department is endeavouring to work out a plan for permanency in the sawlog industry. In both pulpwood and sawlogs the endeavour is being made to place our forest areas under a managed cropping system, and in this connection each operation is being studied to assure systematic cropping of the forests and the protection and stabilization of existing mills before new mills are considered. The tourist industry has been given much needed encouragement by granting of title to tourist lands in selected regions. The efficiency of the fire service is being maintained at a high level. As younger men enlist their posts are maintained by older men until their return. The use of volunteer boys and girls from our summer camps is proving of great aid in a period when labour is hard to obtain. The Department is looking ahead to post-war problems. Thousands of young men grown accustomed to outdoor life will return and be attracted to the open air occupations. Plans to employ them in the seasonal work of the forests are under way. Similar plans are also being considered by the Highways Department.

Mining production in Ontario increased substantially in 1941 and it is estimated that the value of the products of the mines, quarries, pits and wells reached a record total of \$270,000,000. Strenuous efforts are being made to

produce enough nickel to satisfy the demands of Canada, Great Britain and the United States. The mining of iron ore, resumed in 1939 and made possible by the bounty provided by this Legislature, has progressed with great rapidity at the New Helen Mine, which is now supplying American, as well as Canadian, blast furnaces and contributing in no small measure to the Allied war effort. My Ministers have also deemed it wise to continue the services of the Temiskaming Testing Laboratories at Cobalt which were interrupted by fire last summer.

The proposal of the Government of the Dominion of Canada to take over for the duration of the war the annual revenues from the Provincial Corporation Tax and the Income Tax, will be submitted to you. The House will also be asked to consider a measure to provide for taking the votes of enlisted men and women in the service of Canada, wherever stationed.

In addition to the legislation already mentioned bills will be introduced to amend The Municipal Act, The Highway Traffic Act, The Workmen's Compensation Act, The Mining Act, The Judicature Act, The Liquor Control Act and various other statutes.

The Public Accounts for the year ending March 31st, 1941, have been issued and estimates for the ensuing year will be placed before you.

In conclusion I trust that Divine Providence may guide your deliberations during these fateful days of war and that in this Assembly and in your own constituencies you will provide leadership and inspiration to carry us, with our Allies, to final Victory.

The Honourable the Lieutenant-Governor was then pleased to retire.

PRAYERS.

Mr. Speaker informed the House that he had received during the recess, as provided by The Legislative Assembly Act, Section 24 (1), the resignation of the Honourable Member representing the Electoral District of Lincoln and had addressed his Warrant to the Clerk of the Crown in Chancery for the issue of a Writ for the election of a Member for the said Electoral District.

Mr. Macaulay asked the following Question (No. 15):—

1. Are all hotels having beverage room authorities required to be prepared to serve meals three times daily and on each day of the week, Sunday included, and if so, by what statutory or regulatory enactment. 2. If there are any exceptions to the requirements indicated in (1), what are they. 3. Are all the hotels mentioned in (1) required to maintain public dining rooms, distinct from dining rooms provided for the management and staff, and if not, state exceptions. 4. During the calendar year 1941, were any violations of the statutes or regulations in relation to dining rooms and service of meals investigated by the Government or by the Liquor Control Board and if so, how many, and indicate what legal procedure or disciplinary action was taken in each instance. 5. What steps are taken by the Liquor Control Board to ensure that meal service in hotels with beverage room authorities is in accordance with statutory or regulatory enactments.

The Honourable the Prime Minister replied as follows:—

1. Yes. "The hours during which each of the three meals is served shall be stated on the card giving the rates. Such hours shall, as much as possible, correspond with the arrival of trains and boats in the locality. If a guest arrives between the hours set for meals, it is incumbent upon the hotel-keeper to supply, upon request, some food or lunch." Mr. Stewart asked the following Question (No. 25):—

1. What steps, generally, are taken by the Liquor Control Board or by the Attorney-General to check in relation to the sale of beer, ale, or allied products in keg or case lots to illicit liquor vendors.

The Honourable the Prime Minister replied as follows:—

The Liquor Control Act and the Regulations passed pursuant thereto require that no beer may be sold unless the person who is taking delivery has signed a receipt for same, which must contain the name and address of the purchaser. This requirement has resulted in a Purchase Order Form having been prepared in accordance with the direction of the Board on which is set forth complete details of each purchase of beer.

The quantity of beer procurable at one time by any resident is limited by an order of the Liquor Control Board.

Definite instructions have been issued by the Board that beer must not be

sold to residents who, from the amount and frequency of their purchases, are likely to be buying for resale.

Copies of all purchase orders are sent daily to the Head Office of the Liquor Control Board for the purpose of making information readily available for possible police enquiry regarding suspected persons.

The Resolution, having been read a second time, was concurred in.

The House, according to Order, resolved itself into the Committee of Ways and Means.

(*In the Committee*)

Resolved, That there be granted out of the Consolidated Revenue Fund of this Province a sum not exceeding Sixty million, three hundred and nine thousand, six hundred and thirty-six dollars and sixty-nine cents to meet the Supply to that extent granted to His Majesty.

Mr. Speaker resumed the Chair; and Mr. Patterson reported, That the Committee had come to a Resolution.

Ordered, That the Report be received forthwith.

Mr. Patterson, from the Committee on Ways and Means, reported a Resolution, which was read as follows:—

Resolved, That there be granted out of the Consolidated Revenue Fund of this Province a sum not exceeding Sixty million, three hundred and nine thousand six hundred and thirty six dollars and sixty-nine cents to meet the Supply to that extent granted to His Majesty.

The Resolution, having been read the second time, was agreed to.

The following Bill was then introduced and read the first time:—

Bill (No. 67), intituled, "An Act for granting to His Majesty certain sums of Money for the Public Service of the Financial Year ending the 31st day of March, 1943." *Mr. Hepburn* (Elgin).

Ordered, That the Bill be read the second time forthwith.

The Bill was then read a second time.

Ordered, That the Bill be read a third time forthwith.

The Bill was then read the third time and passed.

On the motion of Mr. Hepburn (Elgin), seconded by Mr. Nixon (Brant),

Ordered, That the full Sessional Indemnity be paid to those members of the Assembly whose services with the military, naval or air forces of Canada prevented their attendance and also to those members absent on account of illness or other unavoidable cause; and that the Sessional Indemnity of Mr. Campbell (Sault Ste. Marie) be paid to Mrs. Campbell.

Mr. Kennedy moved, seconded by Mr. Strachan,

That this Legislature urge the people of Ontario to vote "Yes" on the plebiscite to be taken on April 27th.

The motion having been put, was carried without a dissenting voice.

In respect to Question (No. 53), regarding Lake Sulphite Pulp Company Limited, etc., etc.,

Mr. Speaker then said:—

May it please Your Honour:

We, His Majesty’s most dutiful and faithful subjects, the Legislative Assembly of the Province of Ontario, in Session assembled, approach Your Honour with sentiments of unfeigned devotion and loyalty to His Majesty’s person and Government, and humbly beg to present for Your Honour’s acceptance a Bill intituled, “An Act for granting to His Majesty certain sums of money for the Public Service of the financial year ending the 31st day of March, 1942.”

To this Act the Royal Assent was announced by the Clerk of the Legislative Assembly in the following words—

“The Honourable the Lieutenant-Governor doth thank His Majesty’s dutiful and loyal Subjects, accept their benevolence and assent to this Bill in His Majesty’s name.”

And the House having continued to sit until Twelve of the Clock, midnight,
April 16th, 1942.

His Honour was then pleased to deliver the following speech:—

Mr. Speaker and Gentlemen of the Legislative Assembly:

Your Sessional duties having been completed, I would like before you return to your homes to express my appreciation of the services you have rendered.

In the ordinary course of events this would have been the concluding Session of the Twentieth Legislature of this Province. You have, however, made provision for extending the life of the Legislature in conformity with the general desire of our citizens and the absence of any provincial issues sufficient to justify the distraction of a general election during these perilous days.

I note also that you have passed Legislation to enable the members of the armed forces to vote in provincial elections. In view of the world-wide nature of the conflict and the inevitable lengthy period of demobilization which must follow, the problem is obviously a difficult one. It is, therefore, proper and prudent that plans should be made to ensure that those who are fighting to defend our democratic institutions shall be afforded every opportunity that is humanly possible to record their votes.

The Bill you have passed suspending the imposition of Income and Corporation Taxes in order that these taxes may be collected exclusively by the Dominion

for the duration of the war is one of the most important ever to come before this Legislature. The agreement thus authorized with the Dominion of Canada provides for quarterly subvention payments to reimburse the province and also for the maintenance by the Dominion of gasoline tax revenues at the level of the Fiscal Year 1940-41. You have taken all possible precautions to safeguard and preserve the power and authority vested in the Provincial Legislature in these matters by the British North America Act, and having done so, I was pleased to observe that you joined unanimously to expedite the passage of the Legislation as a war measure.

At the opening of the Session I referred to the splendid results accruing from the Cheese and Hog Subsidies authorized last year. The continuance of these subsidies will, I am sure, meet with the general approval of our citizens who realize the vital need of increased food production for Britain, and at the same time appreciate the difficulties under which our farmers are labouring.

Development of the Steep Rock Iron Mines has been made possible by Legislation permitting the drainage of Steep Rock Lake and providing for alternative power for that which must be sacrificed in the operation, and it is expected that large quantities of high-grade ore will be made available for war purposes and commercial use.

The Bills you have passed in connection with the Abitibi Power and Paper Company will protect for the time being the equity of the shareholders and enable an appeal to be made to the Privy Council.

The Annual Budget of the Provincial Treasurer revealed that for the last fiscal year provincial finances have been administered with a surplus on both ordinary and capital accounts. I desire to thank you for the financial provision you have made for carrying on the affairs of the Province for another year, and it is satisfactory to note that a small surplus is again anticipated.

In closing may I express my appreciation of the manner in which you have all co-operated in passing the Legislation needed for the ordinary processes of government and that occasioned by the necessities of war. In your debates it has been very evident that uppermost in your minds has been the clear vision that victory is the one thing that matters and other considerations have receded into the background. Since the Session opened the Allied Nations have suffered reverse after reverse in the far Pacific until the enemy now flanks Australia's northern shores and stands at the very gates of India. Into the battle we must put all our energy, determination, courage and endurance. We face days of great and sore trial. Let us resolve to meet them with faith in our cause and in ourselves and under Divine Providence we shall in the end see the bright dawn of victory and of better days.

The Provincial Secretary then said:—

Mr. Speaker and Gentlemen of the Legislative Assembly:—

It is the will and pleasure of The Honourable the Lieutenant-Governor that this Legislative Assembly be prorogued and this Legislative Assembly is accordingly prorogued.
